

## **Resolution to Require Midterm Grades**

WHEREAS, students deserve feedback in order to determine if they are meeting their own standards;

WHEREAS, midterm grades would provide much needed and meaningful feedback for students;

WHEREAS, midterm grades would only be helpful in classes where a significant percentage of grades have been decided;

THEREFORE, BE IT RESOLVED that the Student Union of Washington University in St. Louis strongly urges the administration to, in future semesters, require professors to issue midterm grades in all classes in which at least 25% of a student's grades for the semester have been decided.
